

DC 68 Spray to Protect

Description

Interior furniture and synthetic fabrics are the number one contributing factors to fire spread and smoke generation today.

Spray to Protect DC 68: is a new water based fire proofing spray that is a Non Toxic, Hypoallergenic, colorless and odorless formula that can be used on any water absorbent fabric or material*.

DC 68 Spray to Protect: retards fire and prevents the spread of flame over the treated area. DC 68 reduces smoke generation which increases visibility and the time to escape a fire situation, smoke is the leading cause of death in fires and using DC 68 significantly increases survivability.

DC 68 Spray to Protect: highly effective when applied to Curtains, Drapes, Carpets and Rugs, Upholstery, Decorations, Paper Products, Sleeping Bags, Mattresses, Wall Paper & Coverings, Aprons, Boots, Table Cloths, or any Water Absorbent Fabric*.

DC68 Spray to Protect: will not affect look, feel or ventilation qualities of most materials treated, however it is recommended to test a small area before applying to entire surface.
